Steinert

Samples of beads.

V. S. Puchelle
4th May 03

Notes

- (1) The fragment of Uhemka will be left in Prof. Seintoff's House till the fate of the Mastaba is decided.
- (2) The wooden coffin is not, except for the lid, in good condition; it has been taken for comparison with the El-Bersich coffins, Dr. Borghardt is to make drawings of it, so it should be put in a fairly accessible place.
