My dear Steindorff,

I ^{send by this post-}
~~enclose~~ prints of the

few photographs I took of

your work: one is quite

pretty, isn't it? The Negatives

I will give to Völz, if

he is still here, or to the

Noble Rubensohn.

I had heard from Horchard
about the things found after
the division of the

arranged with Volz to learn
them for next year.

Maspero's proposal to let you
have $\frac{1}{2}$ of it is a great
chance for your museum.
I should think it will be long
years before such a chance
comes by again.

Thanks indeed for your good wishes
about the house & other matters.
I am in treaty with Louvadachi,
the great Greek merchant, who
has bought the place, to hire

my house from him. It
 is quite likely that we
 shall arrange this. Even
 when ~~as~~ I go to London,
 (which will probably be in
 October 1904) we ^{shall} need
 a house here, or rather
 Miss Thomson will, for
 she announces now to
 us that ~~to~~ she is going to
 marry Beadnell (over)

Captain Lyons' (Jedofiski).

So Minnie too will spend
a good deal of her time in
Cairo or Luxor. There will
be quite a nest of us.

The Museum is just as it was
when you left, so are the robbers,
the law, the parquet, the host
of the flies.

Please remember me to your family.
I must remember Frau Steudoff
better than she me, of the children
I'm sure. My wife sends her
kind regards. Ever, my dear
Steudoff yours J. E. Lubell
